

KSU lecturer gives perspective on MARTA report (WSB-TV)

KENNESAW, Ga. | May 24, 2017

Cyber expert: 'Findings are the worst that I've ever seen'

An outside study found that MARTA's internal network is "very vulnerable to a catastrophic failure."

"These findings are the worst that I've ever seen — point blank," said Andy Green, a lecturer of information security and assurance at Kennesaw State University.
